

Solutions for Law Firms

We provide purpose-built solutions that can improve the profitability and business functions of your law firm.

S1 is a cloud-based tool that enables pricing professionals to store rate arrangement data that can be easily accessed by users when compliance events approach.

Enhance Pricing Governance

- Develop your firm's operational component into an authority equipped with credible, accurate, and actionable information
- Foster trust and credibility with clients through consistent management of pricing agreements while strengthening the negotiating power of your firm's partners
- **S1** helps enable comprehensive compliance with firm pricing policies.

Improve Invoice Accuracy

- Increase firm profit by reducing under and over billing through timely and accurate rate management
- Better serve your clients by reducing the waste and confusion generated from inaccurate billing
- **S1** helps firms regain control during pricing disputes through the comprehensive visibility of pricing information

Scalable Rate Management

- Drive consistency across your firm's pricing operations and enable reliable auditing of pricing controls
- Increase productivity for all resources involved in pricing processes
- **S1** allows firms to create a dependable process around a purpose-built solution to manage a greater percentage of the firm's client pricing agreements

Unlock Business Intelligence

- Gain strategic insight into the firm's pricing portfolio and identify opportunities for improvement
- Enable ongoing analysis of client's current and historical pricing agreements
- **S1** is a foundation that helps firms develop a thorough understanding of their business while matching the analytical sophistication of their clients' procurement teams
